My four years at Jaipur National University have been excellent and a memory to cherish for a lifetime. The years spent here have been full of learning opportunities that were full of fun and frolic and sometimes with academic grind that one has to go through. The international exposure makes you a better man to face the challenges of the corporate world.

I completed my graduation in nursing from Seedling School of Nursing, Jaipur National University, and Jaipur. The encouragement and dedication I received from the faculty is what helped me get through the end. I walked here with almost little knowledge of medical field but left with my Phlebotomy, license and current GPN.
